Ludwig Wittgenstein, *Tractatus* 3.0321:

"Though a state of affairs that would contravene the laws of physics can be represented by us spatially, one that would contravene the laws of geometry cannot."

A counter-example

Here's a blue square seen from the edge:

Here's a red circular disc seen from the edge:

Here's a green circular square seen from the edge:

More examples of seeing possibilities and impossibilities:
